CHALLENGES

EDPs are a potential solution to boost entrepreneurship and also contribute to the motivation of prospective entrepreneurs. People assume that EDPs will solve all the issues of entrepreneurship. Lack of understanding and non-clarity of the objectives limit their growth. There are the following challenges, misconceptions or myths:

- Most budding entrepreneurs lacking cognitive part of the entrepreneurship.
- Crises of resources in developing entrepreneurship eco system in hilly terrain.

- People often link the success of EDPs with the number of participants. There is a myth about EDPs that higher the number, better the EDP.
- Participants think that the success of EDPs is the sole responsibility of trainers, motivators, and organisers.
- Huge financial support to organisers and trainers. Whereas, these are national income and public money.

Waste the resources, as they belong to the government, and the government is responsible for managing all the resources
